PROFESSIONAL SUMMARY

Results-driven Salesforce Developer with hands-on internship experience in Apex, Lightning Web Components (LWC), Flows, and Agentforce AI. Skilled in designing AI-powered agents using Prompt Builder, Prompt Templates, Agent Topics, and Agent Actions. Holds dual Salesforce certifications — Platform Developer I and Agentforce Specialist — backed by 58,000+ Trailhead points and a strong track record of building real-world solutions.

CERTIFICATIONS & CREDENTIALS

Salesforce Certified Platform Developer I

Credential ID: 6897989

Salesforce Certified Agentforce Specialist

Credential ID: 7269662

Salesforce Ranger Rank 58,000+ Trailhead Points — Admin, Development & AI tracks

TECHNICAL SKILLS

Salesforce Admin: Core Configuration, Automation, Security & Access, User Management, Data Management, Reports & Dashboards, Sales & Service Cloud, Platform & Environment Management

Salesforce Dev: Apex (Triggers, Classes, Async), LWC, Visualforce, SOQL & SOSL, REST & SOAP APIs, Apex Unit Testing, Testing & Debugging, Change Sets

Agentforce & AI: Agent Builder, Prompt Builder, Prompt Templates, Agent Topics & Actions, AI-Powered Flow Automation

Tools: VS Code, Git & GitHub, Postman, Salesforce CLI, Data Loader, Workbench, DevOps Center, Sandbox Management

INTERNSHIP EXPERIENCE

Salesforce Developer Intern | Cloudality

Feb 2026 – Present

- Built and enhanced Apex classes, triggers, and LWC components within a live enterprise Salesforce org, adhering to governor limit best practices and coding standards.
- Automated lead assignment, case escalation, and follow-up task creation via 10+ Flows, driving a 60% reduction in manual processing effort and improving team response time.
- Implemented Round-Robin lead and case assignment using Flow, reducing assignment delays and ensuring equitable workload distribution across support teams.
- Integrated Claude AI with Salesforce using MCP (Model Context Protocol) server to fetch and sync data between Claude AI and Salesforce org, enabling AI-driven data retrieval and real-time record interactions.

PROJECTS

Student Mentorship Portal & Weekly Report Automation

Salesforce · 2026

- Built a custom Salesforce app with Student__c, Mentor__c, and MentorshipSession__c objects; configured master-detail/lookup relationships, FLS, and role-based visibility via Profiles and Permission Sets.
- Designed Scheduled Flows to auto-generate weekly mentorship reports every Monday and Approval Processes to route escalation requests with automated email notifications.
- Created dynamic List Views and Dashboards giving coordinators real-time visibility into student progress and session completion rates.

Dynamic Validation Rule Manager (Agentforce-Powered)

Agentforce · Metadata API · 2026

- Architected an Agentforce solution enabling users to create, activate, deactivate, and delete Validation Rules through natural language, without requiring Salesforce Setup access.
- Built Prompt Templates in Prompt Builder and Apex classes to interact with the Metadata API at runtime, cutting rule-change turnaround from hours to minutes.

EDUCATION

Bachelor of Computer Applications (BCA)

2021–2024

Vel Tech Ranga Sanku Arts and Science College, Chennai
